**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 4 is rejected under 35 U.S.C. 102(b) as being anticipated by Snodgrass et al. 5,167,837.

Snodgrass et al. disclose a viscous material application apparatus (col. 1, ll. 7-10), which comprises a main body (11) having a pressurized chamber (124) for storing a viscous material, the pressurized chamber connecting through to a discharge port (16), a viscous material supply device (100) for transferring the viscous material under pressure to the pressurized chamber, a discharge pressure regulating device (90) for regulating a discharge pressure of the viscous material by increasing and decreasing a capacity of the pressurized chamber when the viscous material inside the pressurized chamber is pressurized and discharged (col. 7, ll. 20-32), wherein the discharge pressure regulating device includes an actuator and a diaphragm (126) which transforms under influence of the actuator and increases and decreases capacity inside the pressurized chamber (col. 5, ll. 49-68 onto col. 6 and 7, ll. 1-67).

***Response to Arguments***

3. Applicant's arguments filed 1/18/2005 have been fully considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. James 3,507,583 discloses other type of viscous material application.
5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
